- Adaptability
- Leadership

SKILLS

- HTML, CSS, JavaScript and other framework
- Nodejs and Expressjs
- MongoDB and MySQL
- Python
- Java
- Interface Design
- C/C++

ABOUT ME

I am a front-end web developer with a strong passion for creating intuitive and visually appealing user interfaces. Proficient in technologies like HTML, CSS, JavaScript, and React, I focus on crafting responsive and engaging designs that enhance user experience.

While my expertise lies in front-end development, I also have a working knowledge of back-end technologies, including Node.js and MongoDB, which allows me to contribute to full-stack projects. I am a quick learner with a problem-solving mindset, always eager to explore new tools and frameworks to refine my skills.

I am excited to bring my creativity and technical skills to a team where I can contribute to impactful projects and grow as a developer.

EXPERIENCE

Full Stack Developer Intern Forensic Knight

2024

- Implemented advanced UI/UX features with React.js, Tailwind CSS, and JavaScript to enhance user experience.
- Developed the frontend of Forensic Knight's website using modern web technologies, ensuring a responsive and user-friendly design.
- Optimized website performance, ensuring fast load times and accessibility compliance.

Core Member in Web Development Encode

2023-2024

- Contributed to the development of the club's official website, ensuring a responsive design and user-friendly interface.
- Collaborated with team members to implement features, optimize performance, and maintain website functionality.
- Volunteered in organizing and managing various events, supporting technical operations, and ensuring smooth execution.

Core Member in Web Development ACM

2023-2024

- Organized and conducted a Web Development Workshop, guiding participants through the basics of HTML, CSS, and JavaScript to build their first web application.
- Designed workshop materials and hands-on exercises to enhance learning and engagement among attendees.
